## Voting Statistics

## Vote Cast Statistics

*Note: "MSOP" frequency = Management Say On Pay frequency proposal votes allow shareholders to determine whether, going forward, the "say-on-pay" vote to approve compensation should occur every one, two, or three years. For all calculations in this report, only ballots in status Confirmed or Sent are considered voted. All other ballot statuses are considered unvoted. Do Not Vote instructions are not considered voted and re-registration events are not included. Notwithstanding the above, each unique vote cast is counted within all calculations. In cases of different votes submitted for an individual agenda item, votes cast are discretely counted by vote cast (For, Against, etc.) per proposal. This may result in voting totals exceeding the number of votable items. Withhold vote instructions, predominantly seen in the US market for companies using a plurality vote standard, denote a contrary vote opinion on director elections; for further information, please review ISS' policy guidelines : <https://www.issgovernance.com/policy-gateway/voting-policies>*
